

2016 CPO Class Information/Registration Letter

Thank you for your interest in taking a Certified Pool Operator course with the Pool Doctor. We are sure that you share the basic belief that more knowledge/education will provide a safer and healthier swimming environment and reduce operational costs/liability at the same time.

The benefit of taking a class with the Pool Doctor is that you receive “real world” information from the premier swimming pool service company in Colorado. There are several options available to you to take the course and receive certification; taking the course from a health department or “catalog company” does not give you the added insight and invaluable experience of an instructor that is in the pump room/poolside every day. **Our instructor is the ONLY Association of Pool and Spa Professionals Certified Service Pro** (the highest APSP certification) **AND** National Swimming Pool Foundation (CPO) **Instructor in the state of Colorado**. We bring the “theory” to the “real world” in every class we teach.

Class types:

- **Traditional 2 Day Class – \$225.00 per student**
 - Class starts at 8:30 AM each day and will finish by 5:00 PM
- **Fusion Course – \$295.00 per student**
 - The Fusion course offers the convenience of studying on-line to replace the 1st day of the traditional 2 day class.
 - So instead of a two day class, you can study the chapters of the handbook (and take on-line quizzes) on-line at your own pace.
 - Fusion course students can attend the 2nd day of any Traditional 2 Day Class, for review and testing
 - Contact the Pool Doctor to arrange payment and to receive the verification code for the on-line portion of the class.

Special note: If your maintenance person does not speak English as their first language (or is absolutely fluent in English) we STRONGLY recommend the on-line class taught in Spanish instead of a live class taught in English. Please contact our office at 303-232-8600 for more information about the on-line Spanish CPO class.
